

## Interpath Laboratory, Inc. Test File Update

---

As an Interpath customer who receives electronic results or sends electronic orders you may need to be notified when we update our Service Manual. Although we try to keep these changes to a minimum, laboratory medicine is an evolving industry requiring changes to our technology from time to time. Depending on the requirements of your EMR or Hospital Information System you may be required to make similar changes to your system in order to correctly process inbound electronic results and create outbound electronic orders.

If you are uncertain that you are required to update your system we recommend that you contact your vendor for more information. As your laboratory service provider we are available to participate in the discussion with your vendor so that you clearly understand the impact of these changes.

Included in this email:

- This cover letter with a summary of changes
- Microsoft Word® Document with the detail of these changes to our Service Manual
- Interpath Master Order/Result Compendium

Additional information including our most recent Service Manual and additional contact information can be found at [www.interpathlab.com](http://www.interpathlab.com)

**Effective Date: June 21, 2023**

<b>Specimen:</b>	
Collect:	<b>Vaginal Swab in Aptima Kit-Multitest (Orange)</b>  Also Acceptable Rectal Swab in Aptima Kit-Multitest (Orange) Throat Swab in Aptima Kit-Multitest (Orange) <b>Gynecological Sample in Aptima Kit-Transfer Kit (Green)</b> Random Urine in Aptima Kit-Urine (Yellow) One Standard Transport Tube Random Urine in Sterile Specimen Container
Submit:	<b>Vaginal Swab in Aptima Kit-Multitest (Orange). Submit Refrigerated.</b>  Also Acceptable Random Urine in Aptima Kit-Urine (Yellow). Submit Refrigerated. Random Urine in Sterile Specimen Container. Submit Refrigerated. Throat Swab in Aptima Kit-Multitest (Orange). Submit Refrigerated. Rectal Swab in Aptima Kit-Multitest (Orange). Submit Refrigerated. <b>Gynecological Sample in Aptima Kit-Transfer Kit (Green). Submit Ambient.</b>
Special Handling:	Urine Specimens: The patient should not have urinated for at least one hour prior to sampling. Do not cleanse the area prior to providing the specimen. Direct the patient to provide first-catch urine into a urine collection cup and then transfer appropriate amount of specimen into the transport tube. Liquid must fall between 2 black indicator lines on APTIMA Kit. Please note: Sterile urine stable for 24-hours before being transferred to APTIMA kit.  <b>Green Aptima Specimen Collection (Aptima Kit-Transfer Kit (Green)) is performed at laboratory with aliquot removal from ThinPrep collection fluid.</b>  First catch female urine specimens are acceptable but may detect up to 10% fewer CT/GC infections when compared with vaginal and endocervical swab specimens.  Testing can be performed on liquid pap media. Please call Interpath Pathology for further details (206) 623-3814.
Rejection Criteria:	Patients under 14 years of age. Swab transport tube with no swab, two swabs, a cleaning swab, or a swab not supplied by kit if aptima collection.
Stability:	Ambient: 1 Month(s); Refrigerated: 1 Month(s); Frozen: 12 Month(s); Incubated: Unacceptable
<b>Methodology:</b>	Target Amplified Nucleic Acid Probe
<b>Performed:</b>	Mon-Fri
<b>Reported:</b>	1-3 Day(s)
<b>CPT Codes:</b>	87491
<b>Interpretive Data:</b>	Please see report for interpretive data.
<b>Components:</b>	1127 - CHLAMYDIA <span style="float: right;">1128 - SOURCE</span>

**Please take note of addition of Aptima Kit-Transfer Kit (Green); green Aptima specimen collection (Aptima Kit-Transfer Kit (Green)) is performed at laboratory with aliquot removal from ThinPrep collection fluid.**

# Interpath Laboratory, Inc. Test File Update

<b>Specimen:</b>	
Collect:	<b>Vaginal Swab in Aptima Kit-Multitest (Orange)</b>  Also Acceptable Random Urine in Aptima Kit-Urine (Yellow) <b>Gynecological Sample in Aptima Kit-Transfer Kit (Green)</b> One Standard Transport Tube Random Urine in Sterile Specimen Container
Submit:	<b>Vaginal Swab in Aptima Kit-Multitest (Orange). Submit Refrigerated.</b>  Also Acceptable Random Urine in Aptima Kit-Urine (Yellow). Submit Refrigerated. Random Urine in Sterile Specimen Container. Submit Refrigerated. <b>Gynecological Sample in Aptima Kit-Transfer Kit (Green). Submit Ambient.</b>
Special Handling:	Urine Specimens: The patient should not have urinated for at least one hour prior to sampling. Do not cleanse the area prior to providing the specimen. Direct the patient to provide first-catch urine into a urine collection cup and then transfer appropriate amount of specimen into the transport tube. Please note: Sterile urine stable for 24-hours before being transferred to APTIMA kit.  <b>Green Aptima Specimen Collection (Aptima Kit-Transfer Kit (Green)) is performed at laboratory with aliquot removal from ThinPrep collection fluid.</b>  Testing can be performed on liquid pap media. Please call Pathology for further details (206) 623-3814.
Rejection Criteria:	Patients under 14 years of age. Swab transport tube with no swab, two swabs, a cleaning swab, or a swab not supplied by kit if aptima collection.
Stability:	Ambient: 1 Month(s); Refrigerated: 2 Month(s); Frozen: 24 Month(s); Incubated: Unacceptable
<b>Methodology:</b>	Target Amplified Nucleic Acid Probe
<b>Performed:</b>	Mon-Fri
<b>Reported:</b>	1-3 Day(s)
<b>CPT Codes:</b>	87661
<b>Interpretive Data:</b>	Please see report for interpretive data.
<b>Components:</b>	2827 - TRICHOMONAS <span style="float: right;">1128 - SOURCE</span>

**Please take note of addition of Aptima Kit-Transfer Kit (Green); green Aptima specimen collection (Aptima Kit-Transfer Kit (Green)) is performed at laboratory with aliquot removal from ThinPrep collection fluid.**
