

## Interpath Laboratory, Inc. Test File Update

As an Interpath customer who receives electronic results or sends electronic orders you may need to be notified when we update our Service Manual. Although we try to keep these changes to a minimum, laboratory medicine is an evolving industry requiring changes to our technology from time to time. Depending on the requirements of your EMR or Hospital Information System you may be required to make similar changes to your system in order to correctly process inbound electronic results and create outbound electronic orders.

If you are uncertain that you are required to update your system we recommend that you contact your vendor for more information. As your laboratory service provider we are available to participate in the discussion with your vendor so that you clearly understand the impact of these changes.

## Included in this email:

- This cover letter with a summary of the changes
- Microsoft Word® Document with the detail of these changes to our Service Manual
- Interpath Master Order/Result Compendium

Additional information including our most recent Service Manual and additional contact information can be found at <a href="https://www.interpathlab.com">www.interpathlab.com</a>

Effective Date: October 21, 2024

## Interpath Laboratory, Inc. Test File Update

90007 C	ystatin and Creatinine With eGFR	CC				
Specimen:						
Collect:	One SST  Also Acceptable One Green Top (Li Heparin) One Lavender (EDTA)					
	One Pink Top (EDTA) One Standard Transport Tube					
Submit:	1 mL (Min:0.2 mL) Serum in Standard Transport Tube. Submit Refrigerated. Submit in a Standard Transport Tube.					
	Also Acceptable  1 mL (Min:0.2 mL) Plasma in Standard Transport Tube. Submit Refrigerated. Submit in a Standard Transport Tube.  1 mL (Min:0.2 mL) Plasma in Standard Transport Tube. Submit Refrigerated. Submit in a Standard Transport Tube.  1 mL (Min:0.2 mL) Plasma in Standard Transport Tube. Submit Refrigerated. Submit in a Standard Transport Tube.					
Special Handling:	Allow specimen to clot completely at room temperature Separate from cells within 2 hours of collection Patient age and sex are required for calculation.					
Stability:	Ambient: 1 Week(s); Refrigerated: 1 Week(s); Frozen: 3 Month(s); Incubated: Unacceptable					
Methodology:	Quantitative Enzymatic Assay					
Performed:	Sun-Sat					
Reported:	2-3 Day(s)					
CPT Codes:	82610 82565					
Interpretive Data:	Please see report for interpretive data.					
Components:	90331 - CREATININE, SERUM 90333 - eGFR BY CKD-EPI					

Please note of changes to Components.
